- Errorcodes für Standardantworten

#11901 You can't just make shit up and expect the computer to know what you mean, Retardo!

#11902 You said it didn't work, but you didn't say what it would have done if it *\*had\** worked

#11904 Who the fuck cares which one is faster?

#11906 Look at the error message! Look at the error message!

#11907 Looking for a compiler bug is the strategy of LAST resort. LAST resort.

# The File Of Good Advice

#11908 Premature optimization is the root of all evil.

#11909 Bad programmer! No cookie!

#11913 Gee, I don't know. I wonder what the manual says about that?

#11917 Read. Learn. Evolve.

#11920 The error message is the Truth.  
The error message is God.

#11924 Well, if you don't know what it does, why did you put it in your program?

#11926 That's like taking a crap on someone's doorstep and then ringing the doorbell to ask for toilet paper.

#11999 You are a stupid asshole. Shut the fuck up.
